## Paul And Virginia

By SAINT-PIERRE. (Condensation by Irving Bacheller.)

IN the year 1756 a young man of Normitted by the country of the liste de France his young life, whose family was of noble blood. Phortly afterward he was taken with the fever and died leaving her alone on the isle.

Estranged from her family and retired for an engineer, hermaning family and rithout means, the young mines made her early to an uninhabited byland where she could cultivate the self without the payment of rent, and there she built a rude home for hermaning the her little child, a daughter whom she mined Virginia. A daughter whom she mined Virginia.

At the same lime another woman with a little non named Faul settled on the same island, and the two wance, mismally grateful for aid and confort, became fast friends, although they had been of different satisfaction in life.

Study the map-study any map of the Desdemona-Duke field-SATISFY yourself that the DEL NORTE Petroleum Company is REALLY JAM-UP to the biggest gushers in the State of Texas.

Ask any oil man who is familiar with this field as to the value of Del Norte holdings-uak them what the Eppier well and the 50 acres on which it is ocated are worth. Ask YOUR banker what he can find out about the men managing the affairs of Del Norte-ask him what he thinks of an investment that can POSITIVELY pay about 30 percent on their present carnings and one that offers most wonderful

El Paso, Texas, Aug. II, 1912.

Mr. J. S. Grisham, Vice Pres.,
Del Norte Petroleum Co.
Eastland, Texas.

Dear Sir:

I am today in the office of your Mr.
Yeape, in The Herald building in El Paso.

Have been out of the city for several days, but am interested in your Company. The public here has been stung so long, so hard and so persistently on oil stocks, trat I fear it is going to be hard to get them interested in a legiti-

oil atocks, that I fear it is going to be hard to get them interested in a legitimate, henest and bonafide company, such as you have.

With your helplings in the Bearden tract alone, you should be able to float your stock, and this is the smallest and in my opinion, the least valuable piece of property you have.

The Eppier Lease, with its producing well and fifty acres proven ground I consider worth a cool million, and your other holdings in the Designmons and sipe Springs fields make yours beyond doubt the meet promising company. The public here has been stungment field.

I stope to be able soon to own still more stock in the Del Norte Petroleum Company.

Tours very truly,

The Dei Norte Petroleum Company should not be confused with the small \$100,000 or so pronotion schemes with an acre or two of lesses. The DEL NORTE own their own drilling equipment—they now have PRODUCTION—they are preparing to drill their second well on the autakirts of Desdemons, and an offset to the ELEVEN THOUSAND TWO HUN-DRED BARREL Lizzie Oueen.

When you buy oil stock you naturally want quick action-KNOW that you are going to get QUICK action by buying in a company with PRODUCTION NOW. Buy while you can ead ALL you can PAR.

On August 25 Del Norte stock advances in price—and this advance is not merely a scheme to hurry in subscriptions, but is made because the actual VALUE of Del Norte property warrants it—DEMANDS it, if you please.

And many thousands of dollars worth of stock will be sold out of the El Paso office for the advanced price and those who buy at the advance will make an EXCELLENT invest-ment—those who buy today at PAR abould double their money within a short time.

Del Norte Petroleum is meeting with instant favors among investors of the Southwest. Some who have made unwise investments are HEDGING on Del Norte-BUYING A SURE SHOT-INVESTING, NOT SPECULATING.

We are accepting subscriptions only with the understanding that in case of over-subscription we are to PROMPTLY return your money and are under no obligation to deliver stock. Many find it advisable to be SURE of getting in on the ground floor—getting stock at PAR—to wise their reservations. We pay all telegraph charges.

ship, only to be flung back upon the sands.

The crew threw themselves into the sea. Those on shore saw a young woman stretching out her arms in piteous entreaty. It was Virginia, almost the last to remain on board. In a moment she, ton, was struggling in the cruel sea,

Paid, unconscious and bleeding from his last attempt to reach, the ship, was carried to a neighbering house while old Doulingo and other friends searched the beach for the body of Virginia.

At last in descair they started back to tell Virginia's mother of the sirl's tragic death. On the way some negroes fall them that wreckage had been driven in at Paim River valley, and so Dominge and his companion turned aside to hook once again for the body.
